Professional Summary:

Motivated **Software Engineer** with **2.5+ years** of hands-on, full-stack experience in **HIS/ERP and web application development**. Expertise in **Laravel, React, Next.js, and Node.js**. Dedicated to building **efficient, scalable, and user-focused software solutions** while leveraging strong problem-solving skills for continuous innovation.

Professional Experience:

Gigabit | Dhaka, Bangladesh | (January 2026 - Present)

Software Engineer L2

- As a Software Engineer L2 (Full Stack) at GIGABIT, I focus on building and scaling robust end-to-end software solutions that drive real-world impact. Excited to collaborate with a team to ship fast and efficient code!

Nextgen Innovation Ltd. | Dhaka, Bangladesh | (August 2023 - January 2026)

Software Engineer (*December 2024 - January 2026*)

- Developing and enhancing Hospital Information Management System (**ERP**) using **Laravel** and **Oracle** Database.
- Leveraged **JavaScript, React, Next.js, and Node.js** to build and enhance highly-available web applications.
- Writing clean, maintainable, and well-documented code, following best practices in version control (Git).
- Understanding requirements across various modules and implementing them effectively in development.
- Conducting bug analysis, system debugging, and database optimization, ensuring stability and smooth production deployment.
- Supporting API integration with internal and third-party systems for seamless data exchange and automation.

Software Implementation Engineer (*August 2023 - December 2024*)

- Worked on both **H360 Hospital ERP implementation and web development**, contributing to end-to-end digital transformation in healthcare organizations.
- Implemented and managed **H360 ERP** across multiple hospitals **DMHL, KPJ, Unico, East West, Allied, and CPH**, covering modules such as **OPD, IPD, Pharmacy, LIS, RIS, EMR, Billing, Inventory, SCM, Accounts, and HRMS**.
- Led **deployment, integration, and end-user training**, ensuring smooth operations.
- Developed the **official website for Divine Mercy Hospital Ltd.**, integrating it with ERP modules to enable **online appointments, payments, and real-time data synchronization**.
- Designed and built **dynamic, responsive web applications** using **React.js, Next.js, Node.js, and JavaScript**, ensuring clean UI/UX and strong performance.
- Successfully developed and deployed the **Guardian Life Insurance Limited** corporate website.

Technical Skills:

- Programming Languages:** JavaScript, PHP, C, C++, Java (Explored), Python (Learning), SQL.
- Frontend:** HTML5, CSS3, JavaScript, React.js, Next.js, Tailwind CSS, Bootstrap, Redux, jQuery, API Integration
- Backend:** Node.js, Express.js, Laravel, REST API Development
- Database:** Oracle, MySQL, MongoDB, PostgreSQL.
- Problem Solving:** [Hacker Rank](#), [Code Forces](#), [CodeChef](#)
- Tools/DevOps:** Git, GitHub, GitLab, Postman, VS Code, Toad for Oracle, DBeaver CE etc.

Education:

- **B.Sc. in CSE** | Southeast University | Tejgaon, Dhaka | 2nd Year (Ongoing)
- **Diploma in CSE** | Shariatpur Polytechnic Institute | Shariatpur, Dhaka | June 2019 – Nov 2023 | CGPA: 3.75

Courses and Certificates:

- **CS Fundamentals with Phitron** : Programming Hero | September 2025 - Present | Batch 8
- **Complete Web Development Course** : Programming Hero | January 2023 - July 2023 | Batch 7
- **Web Development & Design**: Kaizen IT Ltd. | 3 Months | Industrial Attachment
- **Skill Development for Mobile Game & Application**: ICT Division | February 2022 - July 2022

Key Project:

Call Center Management System || Frontend Code || Backend Code

- A scalable **web-based Call Center Management System** developed using **Next.js** and **Node.js/Express** to manage agents, customers, projects, and performance analytics efficiently.
- Implemented **role-based access control** (Admin, Manager, Agent, Trainee) with **JWT authentication** and secure password hashing.
- Developed **team and project management modules** to organize employees, assign responsibilities, and track operational workflows.
- Created **reports and analytics dashboards** to monitor agent performance, project conversion rates, and daily activity trends.
- **Tech Stack**: Antigravity, Next.js, TypeScript, Tailwind CSS, Node.js, Express.js, PostgreSQL, REST APIs, JWT, Git

H360 - Hospital ERP Solution

- Developed H360, a robust and scalable Hospital ERP system designed to digitize and streamline hospital operations across modules (OPD, IPD, Pharmacy, LIS, RIS, EMR, Billing, Inventory, SCM, Accounts, HRMS etc.)
- Designed dynamic and responsive front-end interfaces with jQuery for an interactive user experience.
- **Tech Stack**: Laravel, PHP, Oracle Database, jQuery, JavaScript, HTML5, CSS3, Git, RESTful APIs

Medicare Point | **Team Project (Online Medicine Booking & Health Suggestion System)**

- Led a top-ranked team project under **Programming Hero's Endgame Program**.
- Developed an online medicine booking platform with prescription upload, lab test booking, and home sample collection.
- Built pharmacist dashboards for inventory management and live order tracking.
- Implemented SSL Commerz payments, Firebase authentication, and real-time order updates with email.
- **Tech Stack**: React, Tailwind CSS, Daisy UI, Redux, Node.js, Express.js, MongoDB, JWT, Firebase, SSL Commerz.

Personal Information:

Name: Safayat Hossen Alif

Date of Birth: May 30, 2002

NID: 7810716030

Permanent Address: Vill: Vaulapara, PO: Futkibari, Up: Panchagarh Sadar, Dist: Panchagarh

Present Address: 160 Sornali Sofi, Crescent Road, Dhanmondi, Dhaka
